

Royal Helium Announces Upsized Private Placement to \$5.0 Million

***NOT FOR DISTRIBUTION TO UNITED STATES NEWSWIRE SERVICES OR FOR
DISSEMINATION IN THE UNITED STATES.***

SASKATOON, SASKATCHEWAN – (Cision – December 9, 2020) Royal Helium Ltd. (“Royal” or the “Company”) (TSXV: RHC) is pleased to announce that the Company and a syndicate of agents led by Cormark Securities Inc. (collectively the “Agents”) have agreed to increase the size of its minimum offering previously announced on November 30, 2020 to \$5.0 Million in response to strong interest from both institutional and retail investors. Andrew Davidson, President and CEO of Royal states “we are very pleased with the initial interest in our financing and feel that the increase will further allow Royal the flexibility to continue advancing with its drill program and continued exploration at Climax and other of our helium properties”.

In conjunction with the increased size of the offering, Royal has also revised the terms of the offering to reflect a price of \$0.22 per unit (the “Unit”), with each unit consisting of one common share and one half of one common share purchase warrant exercisable at a price of \$0.35 for a period of 24 months following the closing of the offering. All securities issued will be subject to a four-month hold period.

The Company has granted the Agents an option, exercisable in whole or in part, in the sole discretion of the Agents, for a period up to 48 hours prior to the closing date of the Offering, to purchase additional Units, in an aggregate amount not to exceed 4,550,000 Units sold pursuant to the Offering, on the same terms and at the same price as the Units sold under the Offering.

The Offering is subject to certain conditions including, but not limited to, the receipt of all necessary regulatory and other approvals including the approval of the TSX Venture Exchange (the “TSXV”) and is scheduled to close on or about December 22, 2020.

About Royal Helium Ltd.

Royal is focused on the exploration and development of primary helium production in southern Saskatchewan. With over 400,000 hectares of prospective helium lands held under permits, leases and applications, Royal is one of the largest helium leaseholders in North America. Located next to highways, roads, cities and, importantly, close to existing oil and gas infrastructure, Royal's projects were methodically evaluated for helium potential for over two years, and have been vetted by helium experts, professional geologists and engineers.

For more information, please contact Andrew Davidson, the Chairman, President and CEO of the Company.
